

Immuplex[®]

Available Sizes:
90 Capsules
150 Capsules

IMMUNE
SUPPORT

- Contains Protomorphogen™ and Cytosol™ extracts
- Blends essential micronutrients and minerals to support the immune system*
- Supports a healthy immune system response function*
- Helps maintain normal white blood cell activity already within a normal range*
- Supports the body's normal inflammatory response function*
- Provides ingredients with antioxidant activity
- Excellent source of iron, zinc, copper, chromium, folate and vitamins A, B₆, and B₁₂ and antioxidant vitamins C and E
- Good source of selenium

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

Supplement Facts

Serving Size: 2 Capsules
Servings per Container: 75

	Amount per Serving	%Daily Value
Cholesterol	<5 mg	<2%
Vitamin A	300 mcg RAE	30%
Vitamin C	54 mg	60%
Vitamin E	4.9 mg	33%
Vitamin B6	2 mg	118%
Folate (200 mcg folic acid)	335 mcg DFE	84%
Vitamin B12	2 mcg	85%
Iron	5 mg	28%
Zinc	9 mg	82%
Selenium	6 mcg	11%
Copper	0.2 mg	22%
Chromium	30 mcg	86%
Sodium	25 mg	1%

Proprietary Blend 538 mg †
Bovine liver PMG™ extract, veal bone PMG™ extract, nutritional yeast, bovine spleen PMG™ extract, bovine thymus PMG™ extract, bovine thymus Cytosol™ extract, bovine liver, bovine spleen, and ovine spleen.

†Daily Value not established.

Other Ingredients: Gelatin, zinc amino acid (rice) chelate, ascorbic acid, iron amino acid (rice) chelate, chromium yeast, water, modified tapioca starch, d-alpha tocopherol (vitamin E sunflower), selenium yeast, copper amino acid (rice) chelate, pyridoxine hydrochloride, modified corn starch, dicalcium phosphate, calcium stearate, vitamin A palmitate, sucrose, folic acid, and cyanocobalamin.

Micronutrients in Immune Health

Immuplex[®] contains several micronutrients that function to support the body's normal inflammatory response.* They also work synergistically in the immune response, and many are critical for antibody production.

Additionally, selenium, zinc, vitamin C and vitamin E exhibit antioxidant properties which may help protect against oxidant-mediated inflammation^{2,3} and are essential players in a healthy immune system response.⁴⁻⁶

Why Support the Immune System?

Maintaining a healthy immune system helps the body stop and destroy invaders that may cause harm. Inflammation is a key part of the immune response by responding to harmful pathogens, removing them, and initiating the healing process. Increased cytokine production is part of a normal inflammatory response; however, consistently elevated cytokines in the absence of a trigger can lead to an over-activated immune response.*

In cell culture studies, Immuplex[®] was shown to affect cytokine production, including IL-8, IL-10, TNF α , and IFN γ , indicating its role in mediating T-lymphocyte inflammation.¹

The **great majority** of the raw plant ingredients used in our products are grown on our certified organic farm

Freshly picked crops are often processed within a day to maintain vital nutrients

We harvest more than **6.5 million** pounds of ingredients on our certified organic and sustainable farm

Healthy Soil. Healthy Plants. Healthy Lives.

Standard Process is a family-owned company dedicated to making high-quality and nutrient-dense therapeutic supplements for three generations.

We apply a holistic approach to how we farm, manufacture and protect the quality of our products. This comprehensive strategy ensures that our clinical solutions deliver complex nutrients as nature intended. It's how we define the whole food health advantage.
